

# Alex Mifsud

**Founder and CEO  
Ixaris Technologies Ltd**

Before founding Ixaris, Alex worked as a senior consultant in the Cambridge-based tech practice of Arthur D. Little, a global management consultancy providing technology and innovation advice to blue chip clients. Alex holds a bachelor's degree in electrical engineering from the University of Malta – where he later headed the Computer Science department – as well as MSc and PhD degrees in computer science from the University of Edinburgh.
